

Samir ElSayed

Backend Developer | PHP & Laravel

samiralsaid07@gmail.com | +20 122 539 9159 | [LinkedIn](#) | [GitHub](#) | Tanta, El Gharbia, Egypt

PROFESSIONAL SUMMARY

Backend Developer with hands-on experience in PHP and Laravel, building restaurant management systems, ERP platforms, e-commerce solutions, and healthcare applications. Strong in RESTful API design, MVC architecture, Eloquent ORM, and role-based access control. Committed to clean, scalable, and maintainable code.

TECHNICAL SKILLS

- **Backend:** PHP, Laravel, RESTful API Design, Eloquent ORM, MVC Architecture
- **Database:** MySQL, Database Design, Migrations & Seeders, Query Optimization
- **Auth & Security:** Authentication, Authorization, Spatie Permission, Laravel Sanctum, Laravel Breeze
- **Frontend:** HTML5, CSS3, Bootstrap, JavaScript
- **Tools:** GitHub, Postman

PROJECTS

Food System V2 — Laravel, PHP, MySQL

- Restaurant management with Role-Based Access Control (Admin / Waiter / Cashier), table reservations, order processing, billing, and invoice generation.

ERP System — Laravel, PHP, MySQL

- Enterprise platform with sales management, invoicing, and reporting. Role-Based Access Control via Spatie Permission, Laravel Gates & Policies.

E-Commerce RESTful API v2 — Laravel, Token Auth, MySQL

- Scalable store API: product management, cart, CRUD, Eloquent relationships, structured JSON responses.

HealthCare System — Laravel, PHP, MySQL

- Patient appointment scheduling and management on clean Laravel MVC architecture.

News Platform CMS — Laravel, PHP, MySQL

- Role-based CMS (Admin, Writer) with full content publishing workflow.

ExShop & Blog — Native PHP, MySQL

- PHP e-commerce with admin dashboard, cart, and full-CRUD blog.
